SCALES PRODUCE CHORDS

This week's episode introduces music theory as a set of guidelines - tools to make music easier. This NRD OUT details how scales produce related chords that carry the same name.

Seen here, a C Major chord is made by selecting the 1st, 3rd and 5th notes, or *degrees*, of the C Major scale.

Play a C Major chord now and notice how every note is either C, E or G.

SCALE	C	D	E	F	G	A	B	C
DEGREE	1	2	3	4	5	6	7	8
